

ABSTRACT OF THE DISCLOSURE

Inflatable chess pieces are provided. In certain embodiments, the invention provides inflatable chess pieces and a flexible chess board. Preferably, the inflatable chess pieces are oversized. When provided, the flexible chess board is preferably oversized. Some embodiments provide a kit comprising inflatable chess pieces, optionally together with one or any combination of the following: a carrying case, a flexible chess board; an air pump, stakes, an inflation hose. Certain methods of the invention comprise playing chess with inflatable chess pieces.
